## THE EASIEST WAY TO MAKE A PROFIT

# MULTI-BENCH 2000

The MULTI-BENCH 2000 is US design of our PRO SERIES joiner's benches. Workbench is intended for larger workshops with enough of space. Workbench is made only of high quality beech wood which guarantees durability and long service life of the workbench. There are 54 dog holes – such a number guarantees plenty of options for material clamping. Workbench is equipped by two wooden jaws in size 620 x 70 mm ( $24\frac{13}{32} \times 2\frac{3}{4}$  inch), each one has 5 dog holes and opening capacity is up to 170mm ( $6\frac{11}{16}$  inch). Thanks to pre-installed spindles guides, vises can be easily changed to left/right hander version. You can also place both vises on front or side of workbench - this is very useful especially when you need to clamp larger or longer materials. All dog holes have 19 mm ( $\frac{3}{4}$ " ) diameter. There are another dog holes on front edge which can be used for vertical clamping with combination of front and side vises. Legs have 3 dog holes as support for vertical clamping of material. Workbench is very stabile - weight is 145 kg (320 lbs).

Notes:

PRO SERIES

# NEW 2025

54 dog holes for material clamping

Top thickness 100 mm,  $3\frac{15}{16}$  inch

Both vises have screw-set to prevent jaws from tilting

620 x 70 mm,  $24\frac{13}{32} \times 2\frac{3}{4}$  inch front and side vise for strong and stabile clamping. Each one has 5 dog holes.

3 dog holes on each leg for vertical clamping

Optional Storage **Cupboard PRO II**

Standard equipment:  
4pcs of bench dogs, 2x spindle key (wrench), 2x vise, 4x spindle guide

Picture shows workbench incl. all optional accessories.

(150 mm, 5 <sup>29</sup>/<sub>32</sub> inch)

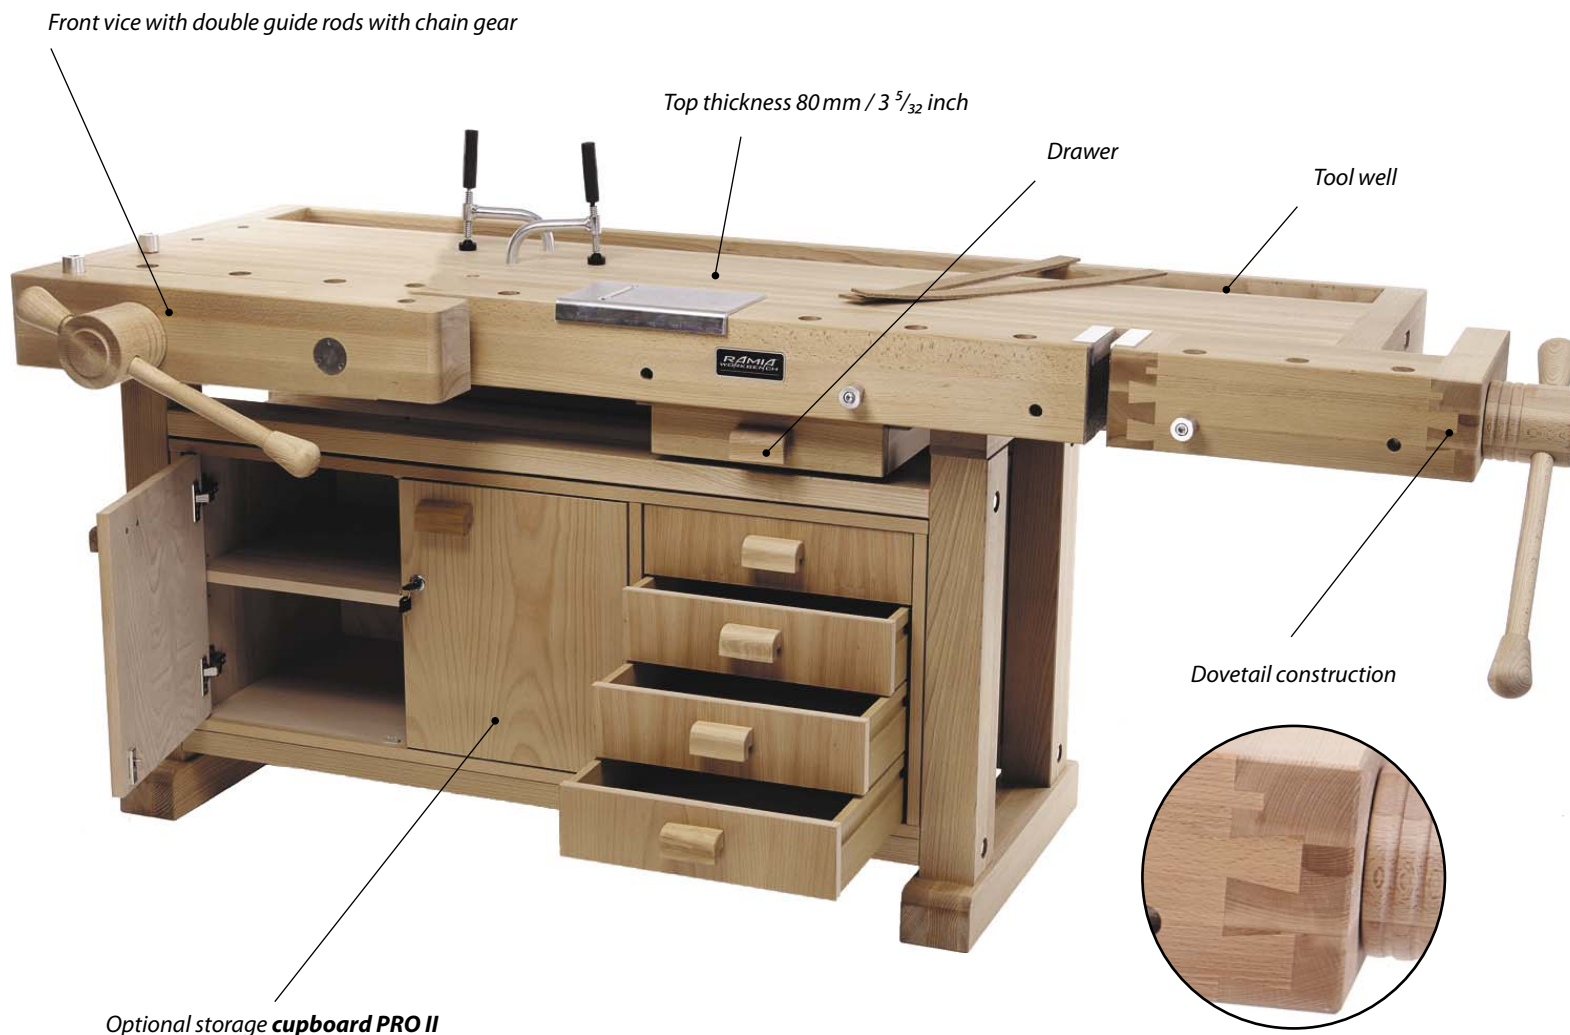

Each vise has screw-set to prevent jaws from tilting.

# PREMIUM SUPERB 2100

🇬🇧 The SUPERB workbench is a model for professionals that meets the most demanding users requirements for compactness, solidity, stability and functionality. The whole model is made of solid beech with top thickness 80 mm. The bench top is made in the firmest double dovetail construction. The front vice is 700 mm long and 100 mm thick and its accurate and parallel tightening is assured with a double spindle with concealed cogged wheel and chain gear. The rear vice is equipped with a double guide bar for absolute strength. The rear vice contains 3 bench dog holes. Another 16 holes for bench dogs are available in the top and located for the best possible use of both vices for clamping the worked material. For maximum compactness and stability of the workbench there are massive strong legs with double stretchers that do not prevent extension of the workbench with a tool box. A tool well is installed in the rear section of the workbench.

Notes:

Standard equipment: 1x drawer, 1x set of round bench dogs PRO, 2x spindle key

! Picture shows workbench incl. all optional accessories.

Opening capacity 250 mm / 9 <sup>27</sup>/<sub>32</sub> inch

# PREMIUM MONSTER 2100

The PREMIUM MONSTER model of joiner's bench is intended for professionals, and designed for large workshops. This model satisfies requirements of the most demanding users. Dovetail design is the most rigid joint possible, guaranteeing maximum resistance and long service life of the bench. The front vice is of sturdy design, 520 mm long and 70 mm wide. The tail vice is equipped with a special spindle used in the highest-quality benches on the market. This type of spindle guarantees absolutely precise and firm guiding of the vice. The back vice is 460 mm long and 140 mm wide. There are 3 holes for bench dogs on this vice - other 16 holes are on the bench plate. The 110 mm high front part includes 4 bench dog holes which, if the back vice with 2 holes is employed, can be used for vertical clamping of the material. This bench includes a drawer for storage of tools which you want to keep at hand all the time. The tool well along the back part of the bench can be used for laying aside redundant tools and remaining material as well as for quick cleaning of the worktop.

Notes:

Standard equipment: 1x drawer, 1x set of round bench dogs PRO, 2x spindle key

Picture shows workbench incl. all optional accessories.

Strong rear dovetail vise driven by flat tail vise spindle with capacity up to 145 mm = 5 <sup>45</sup>/<sub>64</sub> inch.

# DIAMOND

 This bench is a combination of the HOBBY and PRO series and is produced in 2 sizes. The plate made of solid beech wood is designed for high load. The base from block laminated beech wood guarantees maximum stability and rigidity. Thanks to 2 dimensions, this bench is also suitable for large workshops and workshops with restricted room as well. This model has an open tool-storage shelf which can also be used for the material. Likewise, the trough along the back side can be employed for laying aside tools or material, and it is suitable for quick worktop cleaning as well. Thanks to pre-boring of the vices, the bench is suitable for both left- and right-handed persons. Bench dogs holes are bored in the base; in combination with the vice, they enable vertical clamping of the material. The plate includes 2 rows of bench dog holes which offer clamping of materials of various sizes. The bench is supplied in a dismantled state, with detailed assembly instructions.

## Notes:

Both sizes of this model are available as COMBO set.

COMBO contains:  
Workbench DIAMOND 1500 or 1800  
Storage Cupboard HOBBY II

Profi Accessories Kit:  
anvil, pair of holdfast, pair of Cork  
and ALU pads

## HOBBY SERIES

# 2 MADE IN SIZES

Standard equipment: 1x shelf, 1x Set of round bench dogs (HOBBY), 2x spindle key

 Picture shows workbench incl. all universal accessories.

LONG version of DIAMOND workbench

SHORT version of DIAMOND workbench

Vise swapping on left or right version of workbench top.  
It is also possible to have both vises on front or sides of the bench top.

Plenty of dog holes offer many options for clamping of materials of different shapes.  
The open shelf is a great place for tools and materials which you want to have always on hand.

# CLEVER WORKTOP

Introducing our new line of portable workbenches - Clever Worktop. It is a high quality and easily portable worktop, which is made of block laminated beech wood. Clever Worktop is equipped with a carpenter's vice and 4 pieces of bench dogs, which guarantee a firm and stable clamping in combination with the vice. Designed for those who like working with wood, as well as for do-it-yourselfers who do not have a workshop at their disposal, but want a handy desk. Our Clever Worktop is ideal for woodworking such as planing, cutting, grinding, etc., as well as carving and minor home repairs. You can easily clamp the Clever Worktop with the help of clamps (not part of the product) or screw it to any ordinary table or other suitable surface and you can start working immediately. Thanks to its dimensions of 410 x 360 mm and weight of 10 kg, you can easily store it or transfer it to another place.

Notes:

Made of block laminated (finger-joint) beech wood

Comes with 4pcs of steel bench dogs as standard equipment.

Front vise with double guide rods and opening capacity up to 130 mm

Standard equipment: 1x Set of round bench dogs (HOBBY), 1x spindle key

! Picture shows workbench incl. all optional accessories.

HOBBY SERIES

 This optional storage cupboard fits only to DIAMOND (both size) workbenches.

# PROFI Accessory Kit (UN-SET-PRO)

Universal accessories fit into all RAMIA workbenches.

PROFI Kit contains following items:

Pair of Holdfast

Anvil

Pair of Cork and ALU pads

Notes:

## HOLDFAST

*Clamps are used for easy and quick clamping of the material to the worktop.*

## ANVIL

*The anvil is intended for work with iron and minor metal machining works, which you can now also do on the joiner's workbench.*

## ALU PADS

*The aluminium protectors are used to protect the vise when working with material that is harder than wood.*

## CORK PADS

*The cork protectors are suitable accessories for protection of machined wooden pieces, as well as for the vise on your joiner's workbench, especially when working on material with a soft surface or that is susceptible to scratching.*

# ABOUT US

RAMIA s.r.o. is a purely Czech family company specializing in manufacture and sale of wooden joiner's benches and workbenches.

The history of manufacture of joiner's benches in Pisek dates back to the 1st half of the 20th century. The RAMIA s.r.o. company was established in 2006. It continued with both the manufacture of traditional joiner's benches and the development of new joiner's benches for professionals and handymen.

This tradition is an obligation for us and, at the same time, quality assurance for our customers.

Preferring Czech suppliers, we carefully select them. Another distinctive feature of our company is an experienced and well-coordinated team working in perfect harmony of professionals in their fields.

The RAMIA joiner's benches are widely used by professional joiners and carvers, domestic hobbyists and DIY enthusiasts as well as by schools and vocational training centres. Our products are available in the EU, USA, Canadian, Australian, Japanese and other markets.

In a way, products of the Ramia s.r.o. company are unique, as there is no competition in Central and Eastern Europe with regard to products of a similar sort or companies specializing in this type of manufacture.

The design of RAMIA joiner's benches always lays stress on quality, integrity and service life.
